Summary

ReactJS Frontend Developer with over 1 year of professional experience building scalable, responsive, and user-friendly web applications. Expertise in ReactJS, Next.js, TypeScript, JavaScript, and modern frontend technologies. Highly skilled in converting Figma designs to pixel-perfect, production-ready code with attention to detail and design fidelity. Strong understanding of SEO best practices, semantic HTML, and web performance optimization. Proficient in WordPress development with Advanced Custom Fields, UI frameworks including Ant Design, Tailwind CSS, Material UI, and Chakra UI. Experienced with Firebase integration, state management solutions, and Vercel deployment. Strong command of CLI environments and Ubuntu Linux systems. Passionate about frontend development, UI/UX implementation, continuous learning, and creating exceptional user experiences.

Education

Bachelor of Science in Information Technology - Oct 2020 – Sep 2024
University of Chakwal, Punjab, Pakistan

Experience

MicroMerger Pvt Ltd (Feb 2025 – Present)
Associate Software Engineer, Islamabad, Pakistan
- Develop dynamic ReactJS applications and WordPress solutions using ACF
- Convert Figma designs to pixel-perfect, responsive React components
- Implement SEO best practices including semantic HTML, meta tags, structured data
- Build responsive dashboards and admin panels with Ant Design, HTML5, CSS3, JavaScript
- Work with Frappe framework basics for business applications
- Deploy applications to Vercel and maintain production environments
- Delivered Speedy Eats, a dynamic WordPress website with custom CMS integration

Alphabase (US-based) (Nov 2024 – Jan 2025)
Frontend Intern, NSTP, Islamabad, Pakistan
- Developed Qotion, a Notion-style collaborative table application
- Converted Figma mockups into functional React components
- Implemented state management using Jotai, Zustand, React Context API
- Enhanced UI/UX on Zaplead.ai platform
- Collaborated using Git for version control

Juhuu Gmbh (Austria-based) (Sep 2023 – Mar 2024)
Frontend Developer, Remote
- Designed, developed and maintained web applications using React.js, Tailwind CSS, and JavaScript.
- Built the JUHUU Marketplace and BikeBox websites, optimizing for performance and responsive design.
- Collaborated remotely with the JUHUU team to iterate on UI/UX and implement new features.

BestMobile.pk (Jan 2020 – Jun 2024)
Social Media Manager, Remote
- Managed social media strategy across multiple platforms
- Created visual content using Photoshop and After Effects

Projects

PeekGamer (2025) — Next.js 14, TypeScript, Ant Design, Vercel
- Custom dark-themed UI, SEO optimization, advanced search/filtering
- Game discovery platform with server-side rendering
- Favorites system with localStorage persistence

StitchSmart (2025) — React, TypeScript, Tailwind CSS, Firebase, Zustand, IndexedDB
- Tailor shop management system with role-based access
- Offline-first functionality using IndexedDB
- Orders, payments, analytics dashboard

Qotion (Dec 2024) — ReactJS, TypeScript, Jotai, Zustand, Firebase, Tailwind CSS
- Notion-style table clone with drag-and-drop
- Real-time sync via Firebase

KaTable App (Jan 2025) — ReactJS, TypeScript, Material UI
- Editable, customizable data table with localStorage persistence

PlantPulse (Feb – Jul 2024) — ESP32, React, Firebase, C++, Arduino IDE
- Greenhouse monitoring system with real-time sensor data
- React-based dashboard for visualization and remote monitoring

Cinematic Vistas (2024) — React, TypeScript, Tailwind CSS, API Integration
- Movie browsing platform with search/filtering and responsive UI

ExplorePak (2024) — PHP, MySQL, HTML5, CSS3, Bootstrap
- Tourism platform with admin panel for package and booking management

Speedy Eats (2025) — WordPress, ACF, PHP, CSS
- Fully dynamic WordPress website with custom theme and SEO optimization

BikeBox Website (JUHUU GmbH)
- Developed an **e-commerce platform** for bike rentals and accessories.
- Optimized performance and **mobile responsiveness** to improve customer engagement.
- Integrated product listing, filtering, and booking functionalities.
